NON-JPL AUTHOR LICENSE TO PUBLISH AND CERTIFICATION OF CLEARANCE

Before submitting work to the Jet Propulsion Laboratory (JPL) for external publication by the Laboratory, a non-JPL author must have his or her contribution cleared for public release by his or her own organization. This contribution could be solely authored outside of JPL or be co-authored with JPL employees and/or JPL on-site contractors. Information must be deemed suitable for public release, by an appropriate authority in the non-JPL author's organization. Furthermore, the author or author's organization's authorized representative must grant the Jet Propulsion Laboratory, California Institute of Technology, a non-exclusive license to publish the contribution. Granting such a license does not preclude the author from using his or her work elsewhere.

Please complete and sign/date this form and return it *as soon as possible* to avoid a delay in publication. **If guidance is needed, please contact your organization's office(s) responsible for export control compliance, technology transfer, and/or sponsored research, as applicable.** For additional help with this form, contact JPL Document Review Services at 818-354-1141.
